COVID-19 Community Education Empowerment Program
A Virtual Internship for STEM HS Juniors and Seniors and College Students

The COVID-19 Community Education Empowerment Internship Program, a collaboration of New York City medical schools, will recruit underrepresented in medicine, first generation, and disadvantaged 11th and 12th graders, college and gap year students interested in medical and health careers to learn about COVID-19 and disparities, vaccine science, the roles of medicine and public health, and strategies for community education and empowerment.

Steering committee:
Dr. Susana Morales, Weill Cornell
Dr. Lynne Holden, Einstein and Mentoring in Medicine
Dr. Gary Butts, Mount Sinai
Dr. Joseph Osborne, Weill Cornell
Dr. Carla Boutin-Foster, SUNY Downstate
Dr. Joseph Ravenell, NYU
Dr. Hilda Hutcherson, Columbia

Curriculum will include:
- Virology and Pandemics
- COVID Biology and Prevention
- COVID 19, Disparities and Ripple Effects
- Effects of COVID
- How the Immune System Works
- How Vaccines Work
- COVID 19 Vaccine
- Vaccine Hesitancy
- Communication with Role Playing
- Reliable Resources/Public Health and Access
- Capstone Presentation
